## Education

**UNIVERSITY OF ILORIN**  
BSc. Chemistry  
2021

## Skills

Frontend Languages  
JavaScript (React, Next.js), TypeScript, HTML5/CSS3

Frameworks & Tools:  
React Native, Tailwind CSS, Material-UI, Git, REST/GraphQL

## Experience

**SENIOR FRONTEND ENGINEER** QURULAB.  
August 2024 - Present

- Developed a **WinRealty** real estate web app with Next.js and Tailwind CSS, building dynamic dashboards and integrating APIs for property listings.
- Built dynamic interfaces for property listings, user authentication, and role-based dashboards for buyers, admins, and sub-admins. Integrated the frontend with backend APIs, ensuring seamless data fetching, state management, and responsive design.
- Optimized performance using server-side rendering (SSR) and client-side caching.
- Built a **Learning Management System (LMS)** for a company with a **BesSpoken** UI, enabling student registration, course purchasing (online/offline), and installment payments. Implemented tutor onboarding, course uploads, and community management features. Developed an admin panel for managing users, payments, and platform activities, ensuring a seamless learning experience

**FRONTEND DEVELOPER** THERMOLINKS.  
Oct 2022 - Jul 2023

- Built a **certificate generator** with Next.js, automating PDF creation and user authentication.
- Designed a **responsive UI** for a sponsorship platform using React.
- Led frontend development for **Project Hope** – an orphan support platform – designing user registration, sponsorship management, and donation tracking features using React/Next.js. Streamlined support processes with intuitive UI and secure data flows
